

## UNIVERSE CORNER GUARD AZA1022

The AZA1022 Corner Guard is a durable and cost-effective solution designed to protect wall edges and exposed corners from impact damage in both residential and commercial environments. It minimizes chipping, cracking, abrasion, and collision damage, making it essential for high-traffic areas where movement of equipment, vehicles, or people is frequent. Engineered for long-term performance and visual appeal, the AZA1022 enhances both structural protection and interior aesthetics.
