

## UNIVERSE SCAFFOLD POLY CLIP AZA1019

The AZA1019 Scaffold Poly Clip is a high-strength, reusable fastening accessory designed for securely attaching debris netting, shade mesh, and protective sheeting to scaffolding systems. Engineered for durability, safety, and efficiency, it provides a tool-free and weather-resistant solution for construction and industrial environments.

Widely used by contractors, safety officers, and site supervisors, the AZA1019 enhances site safety, dust control, and environmental protection, particularly in high-rise and exposed conditions.

### Key Features

- High-Durability Construction

UV-treated, high-density polypropylene for long-term outdoor use

- Firm Grip Mechanism

Serrated jaws with strong clamping force for secure holding

- Tool-Free Installation

Simple snap-on design eliminates need for tools, wires, or zip ties

- Reusable & Cost-Effective

Designed for multiple usage cycles, reducing consumable costs

## UNIVERSE

- Weather & Corrosion Resistant
- Fully rust-proof; resistant to sun, rain, wind, and dust
- High Visibility Options
- Available in bright colors for easy inspection and compliance
- Wide Compatibility
- Suitable for standard scaffold tubes and multiple netting materials

### TECHNICAL SPECIFICATION

Attribute	Details
Model	AZA1019
Material	UV-stabilized Polypropylene
Color Options	Yellow, Red, Green, Black
Compatible Tube Size	40 mm – 50 mm scaffold pipes
Application	Netting, mesh, sheeting fastening
Reusability	Yes (multiple cycles)
Installation Method	Manual snap-on
Operating Temperature	-10°C to 60°C
