WOOD WORKING BASIC SPIRAL LATHE AZA1210A

The AZA LAB Wood Working Basic Spiral Lathe – Model AZA1210A is a high-precision, heavy-duty machine designed for wood turning, facing, and spiral operations.

Engineered with a powerful motor, rigid construction, and advanced accessory integration, the AZA1210A delivers superior performance for demanding woodworking applications. With its enhanced capacity, higher spindle speeds, and integrated routing functionality, it is ideally suited for professional workshops and industrial environments.

Key Benefits

- High-precision machining for turning and spiral work
- Increased capacity for larger and heavier workpieces
- Powerful motor for continuous heavy-duty operation
- Integrated router system for extended functionality
- Comprehensive accessory package for versatile use
- Easy setup with single-phase power compatibility

Applications

- Wood turning and shaping
- Spiral and decorative woodworking
- Furniture and column manufacturing
- Advanced carpentry and joinery
- Industrial woodworking production
