WOOD WORKING MORTISER & TENONING MACHINE AZA1216

The AZA LAB Wood Working Mortiser & Tenoning Machine Model AZA1216 is a compact yet powerful solution designed for accurate mortise and tenon joint production.

Engineered for small to medium workshops, this machine combines precision, reliability, and ease of operation in a space-efficient design. Powered by a 2 HP motor, the AZA1216 delivers consistent performance for a wide range of woodworking applications while maintaining high accuracy and repeatability.

Key Benefits

- Compact design ideal for smaller workshops
- Accurate mortise and tenon joint production
- Reliable performance with consistent cutting quality
- Easy operation and quick setup
- Efficient dust collection for cleaner workspace
- Durable construction for long service life

Applications

- Furniture manufacturing
- Cabinet and door production
- Joinery and carpentry workshops
- Frame and panel fabrication
- Small-scale woodworking units
